The online submission is now open. You may review the criteria and make your submission at: http://www.cognitivesciencesociety.org/conference/cogsci2017/submissions/

____________________________________________________________

Highlights Include:

Plenary Speakers:
Richard Granger, Dartmouth
Ulrike Hahn, Birkbeck, University of London
Richard Sutton, University of Alberta

16th Rumelhart Prize Presentation:
Lila Gleitman, University of Pennsylvania

2016 C.L. de Carvalho-Heineken Prize Winner for Cognitive Science:
Elizabeth Spelke, Harvard University

Cognitive scientists from around the world are invited to attend CogSci 2017! The Annual Meeting of the Cognitive Science Society is the world's premiere annual conference the interdisciplinary study of cognition. Cognitive Science draws on a broad spectrum of disciplines, topics, and methodologies, and CogSci 2017 reflects this diversity in its theme.

In addition to the invited presentations, the program will be filled with competitive peer-reviewed submissions of several kinds: research papers, contributed symposia, publication-based talks, member abstracts, tutorials, and workshops. Submissions may report on work involving any approach to Cognitive Science, including, but not limited to, anthropology, artificial intelligence, computational cognitive systems, cognitive development, cognitive neuroscience, cognitive psychology, education, evolution of cognition, linguistics, logic, machine learning, network analysis, neural networks, philosophy, and robotics.

Please see the submissions page on the conference website for submission categories, including a new option to publish only the abstract portion of 6-page submissions. The deadline for submissions is **February 1, 2017**. All submissions must be made via the conference program website. Information regarding the submission process may be found at: http://www.cognitivesciencesociety.org/conference/cogsci2017/submissions/

London is a world-class city with many tourist attractions, a vibrant nightlife, and an extensive history linked to the field of Cognitive Science. Come and explore the breadth and depth of this global city.
